

HEADLED II

The HEADLED II is an all-rounder for sport and the outdoors. The ultra-light head torch with a compact design is rechargeable and has an output of 120 lumens and a range of up to 35 meters with an excellent lighting pattern. A boost mode provides a temporary high power output of 180 lumens. The product impresses with its ease of use and comfortable fit with a weight of just 57 g.

BOOST MODE 180 LUMENS

The boost mode is activated for approximately 10 seconds by pressing the button twice.

REFLECTIVE LOOP

A reflective strip around the back of the head increases safety while running in the dark.

ADJUSTABLE LIGHTING ANGLE

The angle of the HEADLED II can be adjusted by up to 90°.

Item no. 18850

HEADLED II contents:
USB cable
